Chalet Tournier & Gastronomy

A vacation should be an opportunity to indulge your palate as well as your senses. At Chalet Tournier, we serve you the highest quality cuisine using the freshest natural ingredients. Our philosophy is that all calories should be high quality ones!

Your food and wine is included and you will be able to discuss the menu with our chef on arrival, so you can be sure you will be served dishes and wines you will enjoy. Should you have any special requests, we will do our best to accommodate these - within reason of course!

Savour your mornings

Every morning you will wake up to the smell of freshly ground coffee and be greeted with an appetising breakfast.

If you have a day of hard activity ahead, you will want a good hearty cooked breakfast. Our chef will cook everything fresh for you including any style of eggs you wish and your choice of latte, cappuccino or tea.

If you fancy something a little lighter, try our wholegrain muesli topped with natural yoghurt and fresh fruit salad, accompanied by a freshly pressed juice. There is also a selection of cereals, freshly baked pastries, multigrain and specialty breads and homemade jams.

Après-ski warmer

When you return from the slopes tired and cold in the afternoon, come and curl up by our open log fire.

We will serve you with a mug of our special spiced hot chocolate accompanied by freshly baked cakes, scones or biscuits. You can also help yourself to fruit from the bowl any time you wish.

Alternatively, you can drop your ski bag at the chalet and head to one of the many fantastic bars and restaurants in Méribel, only a few minutes walk from Chalet Tournier.

Gourmet evenings

To start your evening, you can enjoy an aperitif and canapés by the blazing fire. Following this, our highly qualified chef will serve you a sumptuous four-course dinner.

Our menu comprises the finest French cuisine and exquisite traditional Savoyard dishes with a contemporary twist, followed by a cheese board with a delicious range of French regional cheeses and an extravagant dessert.

You will also be able to select your own wine from our well-stocked cave with its hand-picked selection of the best French wines.

The Ski Area

Méribel is an enchanting resort full of Savoyard charm with traditional architecture and a warm and elegant atmosphere. There's plenty to do here off the slopes and off-season.

For something a little warmer in the winter, there is a swimming pool with spa area and a ten-pin bowling alley. In the summer, you can go walking or do a range of mountain sports such as paragliding, rock climbing and mountain biking.

The Ski Area

Méribel is situated at an altitude of 1450m in the heart of Les Trois Valées, the largest and most concentrated ski area in the world with 600km of well-linked pistes, 200 lifts and hundreds of snow canons to top up that snow cover.

There is something for everyone here with 49 green and 89 blue runs for beginners, 116 red runs for intermediate skiers and 37 black runs and endless off-piste opportunities for more seasoned skiers. The main ski season runs from December to April.

Méribel also boasts excellent private ski schools to cater for all levels, extensive cross country tracks, three specialist snowboard parks, a separate snowboard area and an Olympic centre with an ice skating rink and ice karting. You can also hire snowshoes and snow bikes and try out dog sledding.

In the evenings, there are a number of excellent restaurants and late night bars and clubs for those who like to stay out until the early hours. There are also good crèche facilities and a free bus service operating in the resort to help you get around.

An exclusive location

Chalet Tournier was built by Monsieur Tournier, one of the founders of Méribel, and is one of the original chalet locations in Méribel. It is situated on the prestigious route des Chalets and route de la Renarde 100m from the piste and five minutes walk from the centre of Méribel with its excellent shops, bars and restaurants. The chalet is set back slightly from the road and has its own garden, offering you a haven of tranquillity and privacy.

Inside Chalet Tournier

It will be hard to get out on the slopes!

In 2005, this sumptuous alpine home was completely refurbished and beautifully redecorated to the highest specifications by the new owner. The result is a luxurious modern chalet with a warm atmosphere and excellent facilities.

The interior decoration is a perfect blend of elegant French and Savoyard furnishings and contemporary design. There is 310m² of living space including a spacious open plan living area with a central open log fire, comfortable sofas and an elegant dining area. This leads out onto a large south and west facing sun terrace with panoramic views over the Méribel valley.

The chalet sleeps 10 adults plus 4 children. There are five beautiful and comfortable rooms with en suite facilities, two with private balconies and a view of the valley and two with adjoining kids rooms. The chalet also has a ski room, sauna, hot tub, garden and state-of-the-art-technology.

Those special touches

At Chalet Tournier, we think the details matter so we've added a few special touches to make your stay even more comfortable. In your suite you will find a soft bathrobe and slippers for those moments when you just fancy chilling out. In the bathroom, we provide you with fluffy white towels and a selection of beautiful organic and natural products to help you relax and smell great!

A haven of wellbeing

After a hard day skiing, shopping or engaging in other activities, you deserve a bit of down time to relax. Chalet Tournier offers you a range of options depending on how you prefer to wind down, chill out and pamper yourself.

Those seeking a bit of warmth can choose to sweat it out in the sauna or sip an aperitif in the hot tub on the terrace watching the winter sun go down over the mountains. Alternatively, we can organise for a trained masseur to come and help relieve the tension from your tired limbs. If you prefer to stay dry why not curl up in one of our comfy sofas in front of the log fire and browse a book or magazine from our bookcase?

If you just can't live without visual and aural simulation, then you can listen to a CD or radio or watch satellite TV on the flat screen TV in the privacy of your own room. The Chalet also has broadband access so you can also browse the net or chat with the friends and family who couldn't make it.
